Predisposing Causes of the Disease--Im-portant Admonitions.

From the Chicago Tribune.

Ilaving been a close observer of everything connected with Asiatic cholera since 1882, and being cuttrely satisfied, from what I know of the history of that terrible disease, that it will visit our continent usex summers, I am anxious to give the continuity somethints which, if acted appon, may save many lives. Medical winters cause; 2. The predisposing or exciting cause, and 3. The proximate cause. I has as is the disease itself, and consequently not a cause, but an effect; but such is neclical pringed. With regard to the predisposing causes. We also of the means of scarlettus, diptheria, or a host of other diseases. Not so, however, with regard to the predisposing causes. We think we know many of them, and It is to these we should at this line turn our attention. Street borrowers, however, are accommodated at the expense of sellers of paper. The banks are discounting very little, and an increased amount of paper is consequently thrown upon the street.— This movement is reflected in a decrease of loans, as shown by the bank statement, amounting to \$3,292,059 The rates of discount are consequat ly I-2al per cent higher. Prime paper is current at 7a8 per cent, good at 8 1-2a10 per cent, other gradus 10a18 per cent. Three banks were applied to in succession this morning for national bank currency by a firm, not one of which could meet the requisition. The banks have been receiving moderate amounts of currency from the West. The effect of the sudden large sales of gold upon credit operations is apparent in the large decline of \$3,292,058 in loans within the week. It is difficult to conceive what can have moved the Treasury Department to this violent disturbing course. The result to business has seen serious, and there should be some substan tial advantage to the government to Justify suc!

Petroleum is etill dull at Schriday e quotations. There is no change in the New York market although Here we ochange in the New York market although not he and a report to the contrary. We were residening to dry the recepts of it. New York market is rejected at the Board of Trade, or the present mouth up to the present time. The first of the mouth there was a market age recept of all out 4000 bbis, per diversity for the ranging Yorm 229,335, but it has slowly dwindled down, not only in quantity but priese, the average recepts to day being about 2500 bbis, and the price about 25°, For the whole monitation receipts are about 9000 bbis. A large portion of this is undoubtfull story and and util find large portion of this is undoubted: stor d and will fit

Several of the small retineries have the sky stopped operations, mable to cope with the low price. Others continued a reword operations sales for future delivery. This can only continue so long as the continued fact or until the contractor refuses to half to his contract. There is one thing certain, of has gut to rise in price in New York or fall at the wells before our shippers can resume with operations. How soon that may take place we of course does a know host that the shippers we can only hope that it may do so at an early day. The following are our quotations to day.
